

AG Repair Service Mechanic Technician

As an AG (Agricultural) Repair Service Mechanic Technician, your role is to maintain and repair agricultural equipment and machinery, ensuring their proper functioning to support farming operations. Here are the stages of performance and their associated requirements for a Mechanic Technician in this field:

1. Entry-Level Mechanic Technician: \$18.00-\$20.00

Education/Training: High school diploma or equivalent. On-the-job training or a related certification program is beneficial.

Skills/Requirements:

- Education: High school diploma or equivalent.
- Basic mechanical knowledge and interest in agricultural machinery.
- Ability to use basic hand tools and follow instructions.
- Willingness to learn and work under the guidance of experienced technicians.
- Strong attention to detail and safety protocols.

2. Junior Mechanic Technician: \$20.00-\$23.00

Education/Training: High school diploma or equivalent. On-the-job training or a related certification program is beneficial.

Skills/Requirements:

- Experience: 1-2 years of hands-on experience in repairing and maintaining agricultural equipment.
- Proficiency in using various hand and power tools.
- Basic knowledge of diesel engines, hydraulic systems, and electrical components.
- Ability to diagnose and troubleshoot mechanical issues.
- Effective communication skills to work as part of a team and with customers.

3. Mid-Level Mechanic Technician: \$23.00-\$26.00

Education/Training: High school diploma or equivalent. On-the-job training or a related certification program is beneficial. Associate degree or certification in agricultural mechanics or related field preferred.

Skills/Requirements:

- Experience: 3-5 years of experience working with agricultural preferred equipment.
- In-depth understanding of diesel engines, hydraulic systems, and electrical circuits.
- Proficiency in using diagnostic tools and software to identify problems.
- Ability to perform more complex repairs and overhauls.
- Knowledge of safety regulations and compliance standards for agricultural equipment.

4. Senior Mechanic Technician: \$26.00-\$30.00

Education/Training : bachelor's degree or advanced certifications in agricultural engineering or related field may be preferred for some roles.

Skills/Requirements:

- Experience: 5+ years of extensive experience in agricultural equipment repair and maintenance.
- Proven track record of successfully handling complex repairs and maintenance tasks.
- Strong problem-solving skills and ability to work independently.
- Leadership skills to mentor and guide junior technicians.
- Proficiency in maintaining detailed records of repairs and service history.

5. Master Mechanic Technician: \$30.00 +

Education/Training: Bachelor's degree in agricultural engineering or a related field can be advantageous.

Skills/Requirements:

- Experience: 10+ years of comprehensive experience in agricultural equipment repair.
- Extensive knowledge of the latest agricultural machinery and technology.
- Ability to design and implement customized solutions for complex equipment issues.
- Leadership skills to manage a team of technicians and oversee repair operations.
- Excellent customer service and communication skills.
